

Notre Dame de Sion School Hot Lunch Program

We are pleased that Future Foodies will be providing hot lunch for the 2017-2018 school year. Jackie Kincaid Habiger (1991 alumna) founded Future Foodies after seeing the need to nourish, and in turn educate students on healthy unprocessed foods! Not only because students need their bodies & brains to be at their best, but also because learning to make smart food choices today will ultimately lead to making smarter & healthier food choices in their future.

Future Foodies is passionate about creating healthy, balanced, made-from-scratch school lunches, paying close attention to the ingredients, and are dedicated to sourcing from local producers including Campo Lindo Farms, McGonigles meats, Sasha's Baking Co., and Farm to Market Bread. Families can feel confident that the each meal is prepared fresh using quality ingredients, with balanced nutrition & attention to value.

Future Foodies operates a peanut free kitchen. If you have severe medical food allergies or concerns, please email hotlunch@ndsion.edu.

Hot Lunch service will start on the first day of school, Wednesday, August 16th.
